

DIRT M.D.™

ALL STAGES

Disclaimer of Warranties: Seller warrants that the chemical composition of this product confirms to the chemical description given on this label.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. TIMING, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or any accompanying written recommendation, are beyond the control of the seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at the buyer's option, as full discharge of seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.

5 gal (18.93 L)

CONTAINS NONPLANT FOOD INGREDIENT(S)

Active Ingredients: 4.5% Humic Acid (derived from Leonardite)
95.5% Inert Ingredients (water)

Large Scale Directions (>1 acre plot-size)

Foliar: Apply monthly (starting 20 days after seeding/transplanting) at a rate of 0.5-1 quart/acre.

Soil/Drip: Apply 0.5 to 3 gallons/acre during fertilization or with each irrigation (1 gallon of Dirt M.D. mixed with 10-20 gallons of liquid fertilizer)

Pre-Plant: Mix with starter fertilizer at a rate of 1-3 gallons/acre and apply. Conduct Jar Test to test compatibility beforehand.

Transplanting: Add Dirt M.D. at a rate of 0.5 gallon/acre with first watering post transplant. Can be used with the transplant water as well.

Garden Scale Directions (<1 acre)

Compost Teas: 1 tsp (5 mL) per gallon. Apply prior to brewing.

Foliar: 0.5-1 tsp (2.5 mL-5mL) per gallon applied every two weeks or with other foliar nutrient/seaweed applications.

Hydroponics: 1 tsp (5 mL) per gallon applied as a drench to growing medium (compatible with coco) every two weeks. 0.5 tsp (2.5 mL) per gallon applied in the feed tank with every nutrient change.

Seedlings and Cuttings: 1 tsp (5 mL) per gallon; apply to rooting medium or use to soak root ball (compatible with rooting gel).

Soil Drench: 1 tsp (5mL) per gallon applied every two weeks.

Transplanting: 1 tsp (5 mL) per gallon with first watering in new container.

Compatibility & Mixing Instructions:

Dirt M.D.™ is compatible with most pesticides and fertilizers (contact Ocean Agro LLC for a comprehensive list). Mix **Dirt M.D.™** with neutral/basic liquids; DO NOT MIX with acidic or calcium-based fertilizers. Shake well before using.
